

SiegeNET Network Security Services

Protect Your Business Intelligently

SiegeWorks is a leading global enterprise security services, consulting, and integration firm that helps businesses take control of complex digital networks. SiegeWorks remediates vulnerabilities intelligently, preventing privacy and security breaches, and increasing productivity for employees, partners, and customers.

SiegeWorks provides a complete line of network assessment, design, implementation, and training services to build smart, flexible and scalable IT infrastructures. Clients achieve success with HIPAA, Gramm-Leach-Bliley, Sarbanes-Oxley and other security and privacy compliance laws, and benefit from SiegeWork's deep domain experience with large applications and databases, and strong industry partnerships. Award-winning methodologies and best practices benefit more than 400 clients internationally.

SiegeNET Network Security Services

SiegeWorks International Services Group (ISG) guarantees strategic risk management through SiegeNET™ Network Security Services. Solutions fortify routers, switches, proxies, operating systems, applications, and databases. They encompass firewalls, Virtual Private Networks (VPN), Intrusion Detection and Prevention Systems (IDS/IPS) and more.

SiegeNET Assessment Services:

SiegeWorks evaluates networks, applications, databases, and wireless channels according to security and privacy policies and regulatory compliance requirements. Services include:

- Audits
- Consulting & In-depth Risk Assessments
- Discovery of Network Topology/Environment
- Vulnerability Assessments
- Penetration Testing
- Gap Analysis

SiegeNET Design and Development Services:

SiegeWorks' complete implementations secure the environment with speed, scalability, foresight, and cost-effectiveness. Services include:

- Strategic Business Process Remediation
- Installation & Integration
- Compatibility Testing
- Configuration
- Introduction of Policies and Rules
- Regular Checkups & "Body Replacements"
- Documentation & Management Reporting
